# SANGAMON KEEPS PACE WITH THE TIMES

Howard Snethen has always been one of the most forward thinking men in the Short-horn breed. When he founded Sangamon Farm, it was with the idea of having the top herd in the breed. Since its conception the Sangamon Herd has gone through several changes in order to keep pace with the cattle industry.

One thing that has never changed is the outstanding quality that has always been maintained in the herd. This is evident by the fact that cattle produced from this herd over the years have always placed at the top of major shows and sold well in major sales.

Since 1970, when the demand for bigger more efficient cattle with more red meat began, the Sangamon Herd has undergone a complete change-over. Rothney Braw Bob x was the first of the big bulls to be used. His influence on the herd is evident by the many daughters that have been retained. Following him was Weston Big Ben x, a tremendous white bull that not only brought fleshing quality to the herd, but was very successful in crossing on the Braw Bob cows.

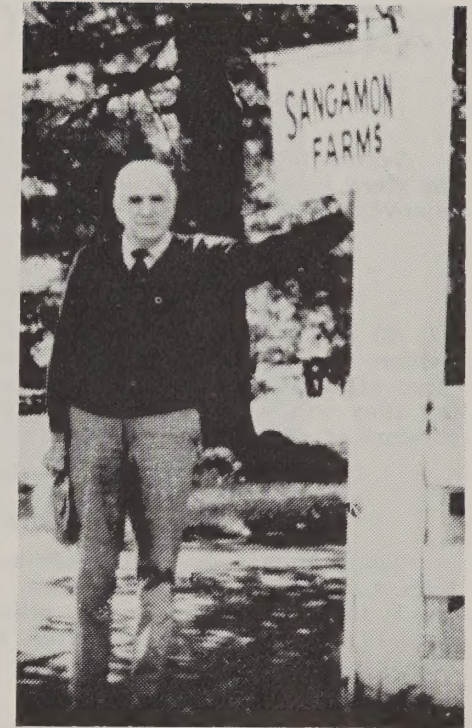

As more and more emphasis was placed on carcass quality, Howard Snethen searched for and found Tyrone Ernmore Image, who as a two year old sonoscoped the world's record loin-eye 20.0 square inches.

The popularity of this young bull and the tremendous loin and muscle which he transmitted to his offspring convinced Howard Snethen that he must own the sire of this bull. To that end, he went to the Ernmore Dispersion and paid the then record price of \$20,000 for CANADIAN IMAGE. This brings us to the herd in its present state at this time.

Certainly there is no more popular bull in the breed today than Canadian Image. His sons and daughters have been acclaimed world-wide as the modern kind. This sale gives you the opportunity to select from the largest concentration of Canadian Image breeding ever held. That he is working successfully on the daughters of the bulls mentioned previously will be evident when you inspect the calves on the ground.

Remember that the years of planning behind the Sangamon Herd when added to your program will produce results. As we look at the total cattle picture today, we see that people are looking for red meat, efficiency and growth rate with the aim in mind of producing steer calves that will weigh 1,150 lbs., grade choice with a minimum of outside fat and do it at 15 months of age.

The Sangamon Program is geared to that idea and you are invited to share these results with them.

Howard Snethen

# TERMS AND CONDITIONS

## TERMS

Terms of this sale are cash. Settlement to be made with the clerk immediately following the sale and before cattle are removed from the New York State Fairgrounds.

## LIABILITY

All persons who attend the sale do so at their own risk. Neither the owners, employees, auctioneer, sale manager, or other affiliated personnel can be responsible for any accidents, but they will make every effort to provide for the safety and comfort of those attending.

## BREEDING GUARANTEE

The standard guarantee endorsed by the American Shorthorn Association will be followed. A provision of this guarantee is that notification to the seller within six months of the date of the sale must be given if an animal fails to be a breeder.

## REGISTRATION AND TRANSFER

All cattle sell with completed American Shorthorn Association certificates and will be transferred to the new owners following the sale.

## DELIVERY OF CATTLE

You will be responsible for your own delivery. We would point out that the consignors will have trucks at the sale and would be available to assist you. Since this sale is held at a public fairgrounds, cattle must be removed immediately following the sale. For buyers from a distance, of Sangamon Farms cattle, they will return your purchases to the farm at Dewittville, New York, where you may make arrangements to have them picked up.

Two of the Shorthorn breed's better known individuals, A. R. "Sandy" Cross, Rothney Farms, Minapore, Alberta, and Howard Snethen, Sangamon Farm, Dewittville, New York. Pictured with Rothney Braw Bob x, immediately following his sale for \$5,500 as a weaned calf.

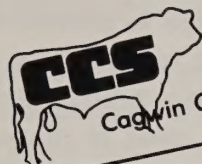

## HEALTH

Each animal will be represented by a Health Certificate approved by the State of New York for interstate shipment. Buyers should make themselves aware of differences in their own states' health regulations.

## MAIL BIDS

We sincerely hope that you will be able to attend. However, in the event that you cannot, you may be assured that your mail and phone bids to any of the personnel connected with the sale will be handled in strictest confidence and, with the highest integrity.

Cagwin Cattle Services, Inc. •

Box 156, Virginia, Ill. 62691

OFFICE 217/452-3232 • HOME 217/452-7520

Dear Shorthorn - Polled Shorthorn Breeders:

It has been a great pleasure for me to work with the New York Association and with Howard Snethen in the preparation for this sale. New York breeders have changed with the times during recent years and today the breed is in its strongest position ever in the state. I sincerely feel that this is the best offering ever presented in this area.

As you see from studying this catalog, the majority of the offering is from Sangamon Farms. This is the first time that they have sold cattle in these numbers and it could be termed their FIRST PRODUCTION SALE. To assure that this sale would attract persons from outside the immediate area, Howard Snethen went deep into his foundation herd. You will note the many females selling that have been excellent producers over the years. To further insure that this would be a sale of national scope, he is selling more females bred to the great Canadian Image than have ever been offered before. This will also be your opportunity to select from a tremendous group of young Canadian Image cattle many of which will be eligible for the shows next year. No one needs to be reminded of the popularity of the Canadian Image cattle.

I take this opportunity to invite you to attend this sale, get to know the New York breeders and become familiar with what they are doing. Sangamon Farms will host a cocktail hour at 6 P.M., Friday evening and then you are invited to join the New York breeders for dinner. If there is anything that I or my staff can do to make your attendance or participation in this sale easier, please do not hesitate to call upon us.

Sincerely,

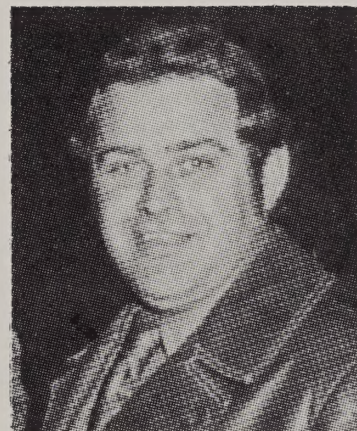

CAGWIN CATTLE SERVICES, INC.

DON CAGWIN

**CANADIAN IMAGE**

Western Livestock Show in Denver and as a result a large volume of semen was sold on him mainly to commercial breeders who liked his tremendous length, soundness and muscle. Unfortunately, the Ernmore Herd had to be dispersed, but fortunately Howard Snethen was able to purchase Canadian Image for the then record price of \$20,000.

Since that time semen sales have been stopped and the only way to obtain the Canadian Image influence is through the purchase of his sons, daughters or females carrying his service from Sangamon Farm. This sale affords you the best opportunity to add this breed building bloodline to your program.

### **FOR REFERENCE ONLY**

Canadian Image is without a doubt one of the most talked about bulls in the history of the breed. His ability to transmit red meat to his offspring is unsurpassed. His cattle are noted for their tremendous loins, rear quarter and frame.

In his first crop of calves he sired the world's record loin-eye for a two year old bull. In this sale you have the opportunity to select from the largest group of females ever sold carrying his service.

There are a number of bull and heifer calves selling that will surely be ranked among the top show cattle in the breed next year.

Canadian Image was developed in Western Canada and used in the Ernie Esau Herd, Elm Creek, Manitoba. He was displayed at the great National

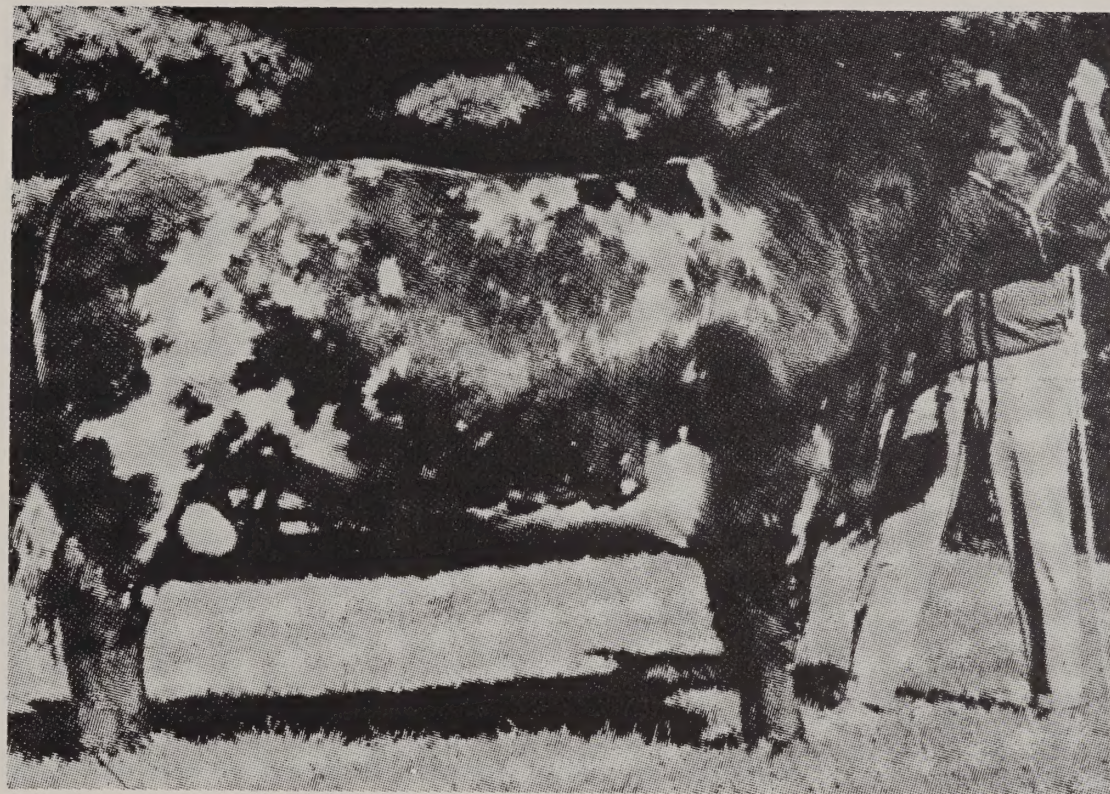

## **FOR REFERENCE ONLY**

The search for a great performance bull was ended when Howard Snethen found Tyrone Ernmores Image. "Ernie" was purchased because of his tremendous thickness, rear quarter and because Howard Snethen believed that Canadian Image was the coming sire in the Shorthorn breed.

"Ernie" was shown very successfully by Sangamon and as a two year old sonoscoped a tremendous 20.0 inch loin-eye which set the world's record. He has been used very heavily in the Sangamon Herd and many of his daughters retained as replacement females.

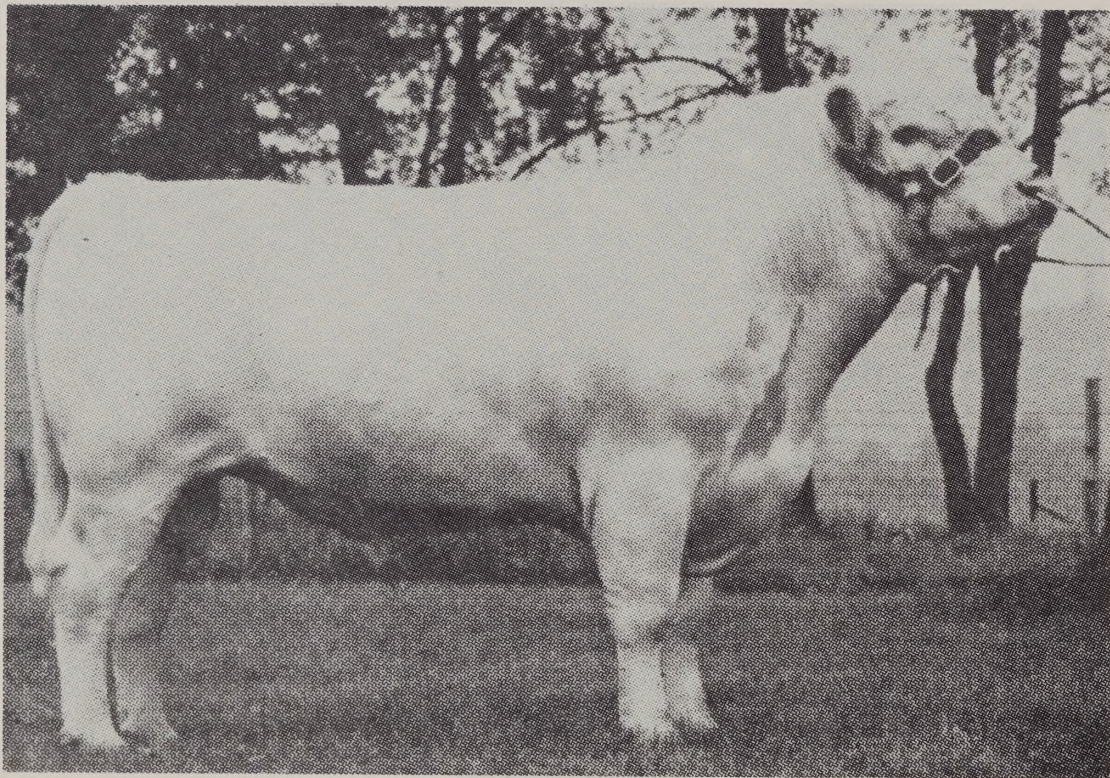

Since Canadian Image became available and was purchased by Sangamon, the use of this tremendous young sire was limited in the herd. However, William J. O'Connor, Jr., Locke, New York, has purchased a one half interest and possession in "Ernie" and will be furthering his influence in one of our breed's newest herds.

You can buy the get and service of Tyrone Ernmores Image with complete confidence. He has proven his ability to sire modern cattle.

**TYRONE ERNMORES IMAGE**

**WESTON BIG BEN x**

### **FOR REFERENCE ONLY**

Weston Big Ben x had cattlemen of all breeds calling him one of the outstanding beef bulls of the decade when he was being shown as a yearling. He was purchased in the 1973 Bob-Lee Production Sale for the top figure for a Shorthorn bull that year at \$5,500.

His calves have been noted for their uniformity and performance. 14 steer calves by him were tested on the National Sire Test in 1975. They recorded a yield grade of 3.2. One was the top weaning weight of all the calves on test that year at 632 pounds and was second over all with .67 pounds of trimmed retail cuts per day of age.

You will note that there are a number of Big Ben heifers in this sale bred to Canadian Image. We feel that this combination with the performance

work that has been done on both bulls is your best assurance of getting high yielding, efficient, fast growing cattle into your herd.

### **FOR REFERENCE ONLY**

Rothney Braw Bob x was the bull that started the big change at Sangamon Farm. He was purchased as a six month old calf for \$5,500 in the 1970 Rothney Farms Sale. He developed into a big, rangy individual that was shown successfully, being named Grand Champion of the New York State Fair as an example.

His real value however has come through use in the Sangamon foundation herd. When bred to our popular cow families, he was able to infuse a genetic jump which increased our weaning weights, yearling weights and mature cow size tremendously.

Today visitors to our herd always comment on the uniformity, character and fleshing ability that his daughters possess. We feel that the combination of Canadian Image and "Ernie" on these cows is an unbeatable combination.

**ROTHNEY BRAW BOB x**

**LOT 1—BULL****T. H. Snethen****SANGAMON PRIDE OF 76 x3617-830-d**

Red, Gloriadale Farms, Ltd.  
Claret Clansman Nell  
Dk. Roan, D. A. Osterhout

**RAGWOOD NELL 3rd** — This Canadian-bred cow is sired by the renowned Gloriadale Meteor's x. She was bred to Clark x on July 16, 1977.

It was decided to catalog all of the Sangamon females together. As you study this group, I think you will agree that Sangamon has gone all out to present to you a truly great offering. The base of the Sangamon Herd has come from throughout North America. Howard Snethen has never let price interfere with his selection if he deemed that female worthy to be placed in the Sangamon Foundation Herd. As a result, he has topped many sales as figures up to \$4,000 for females. Among these would be the record top of the National Western, the top at the Oakwood Dispersion, the top of '71 Windholme Sale, the '70 Strathore Sale, the '63 Polled Congress, the '69 Scottsdale Sale, the '71 Polled Congress and the '75 Bob-Lee Dispersion. These are just a few of the outstanding cows that are now working in the Sangamon Herd. There are sons and daughters of these cows selling as well as many other cattle that trace to them in the second generation.

LOT 21

**LOT 21—FEMALE**

**T. H. Snethen**

**BONNIVUE LOU EVANNE x3456-710**

Tattoo RE 949

Roan. Calved November 20, 1967. Bred by Edna M. Osborne, Denton, Texas.

## SANGAMON FARMS

September 13, 1977

Mr. Wayne C. Neely  
258 Carroll Parkway  
Frederick, Maryland 21701

Dear Mr. Neely:

We would at this time remind you that our first sale will be held in conjunction with the New York State Association on September 24, 1977.

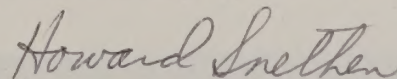

During the years that we have put the Sangamon herd together it has been our desire to have the very best. Our catalog is self explanatory and will best describe our cattle.

At the 1977 New York State Fair one of "Tyrone Ernmore Image"'s daughters, as a September calf, was named Grand Champion over some of the great females that we have seen. We understand that "Canadian Image" sired the Grand Champion at the Missouri State Fair. "Image" has, during the past year, sired several more top selling cattle throughout Canada and the United States. We sincerely believe the cattle from these great bulls will, in the years to come, be a fine asset to the breed.

We would greatly appreciate your coming to our sale and supporting us if at all possible. If you wish any personal information about the cattle or assistance with travel arrangements, please let me know by phone or mail.

With kindest personal regards, I remain

Sincerely yours,

Howard Snethen
